\*DATES EST

## PLUTO → AQUARIUS

NOV 19 '24 -  
MAR 8 '43

1 During Pluto's 20-odd years in humanitarian Aquarius, an authoritarian old guard—represented by Pluto's recent sojourn in Capricorn—is likely to do battle with the innovative and liberatory, as interpretations of freedom are debated and reimagined. Tech may gain power, for better *and* possibly worse.

## JUPITER → CANCER & LEO

CANCER: JUN 9 '25 -  
JUN 30 '26  
LEO: JUN 30 '26 -  
JUL 26 '27

2 During optimistic Jupiter's time in Cancer, caring for others, big emotions, and an attachment to tradition—even the “motherland”—are likely to be highlighted. Jupiter in showy, performative Leo may bring grandstanding, big power moves, and high entertainment.

## URANUS → GEMINI

JUL 7 '25 -  
MAY 22 '33

3 With Uranus in the sign of ideas and the mind, get ready for tech to shift into warp speed. These eight years may also see a renaissance in thought, or perhaps—in the spirit of Uranian rebellion—a rejection of outdated ideas or ideals. Full speed ahead, but be aware: speech may be quick yet “signify nothing.”

## SATURN & NEPTUNE → ARIES

SATURN:  
FEB 13 '26 - APR 12 '28

NEPTUNE:  
JAN 26 '26 - MAY 21 '38

4 These two heavyweights hovered near a conjunction in Aries through 2025 that perfects this year. Saturn's repression can depress Neptunian idealism in a confrontation with “reality” that may be dispiriting, if not heart-breaking. All is not lost: we may also see new clarity around how to implement ideals as well as profound connection to the divine.

## ERIS CONJUNCT CHIRON

MAY 26 '25  
OCT 8 '25  
MAR 19 '26

5 “Wounded healer” Chiron meets up with Eris, the goddess of discord, every 50 years. Historically, this conjunction has coincided with a powerful groundswell against injustice—an uprising that has frequently followed or responded to some kind of wound.

## VENUS RX IN LIBRA & SCORPIO

RX: OCT 3 - NOV 13  
☉ 8° SCO - 22° LIB  
SHADOW: AUG 30 - DEC 15

6 Venus Rx in Libra and Scorpio may bring blessings that spring up and could then flare out in the associated areas of your chart. Embrace what arrives, enjoy the party, celebrate—but reserve judgment on commitments until Venus goes direct or is out of shadow entirely.

## ECLIPSES

FEB 17 ✨ 29° AQUA  
MAR 3 ☾ 13° VIR  
AUG 12 ✨ 20° LEO  
AUG 28 ☾ 5° PIS

7 Eclipses can mark important events, turning points, or significant highs or lows, both in mundane and personal astrology. Look to sign and house placement for insight about how each will affect you.

## RETROGRADES

MERCURY  
FEB 26 - MAR 20  
JUN 29 - JUL 23  
OCT 24 - NOV 13  
VENUS OCT 3 - NOV 13  
JUPITER  
NOV 11 '25 - MAR 10 '26  
DEC 13 '26 - APR 12 '27  
SATURN JUL 26 - DEC 10

8 Retrogrades can indicate a slowing down—or occasionally intensification—in reference to the planet's activities in the house and sign it's transiting. Uranus, Neptune, and Pluto also Rx this year, but are less likely to be apparent in personal lives unless they're making significant connections to a chart.
